# AUXILIARY BATTERY

CKB400U Utility

CKB400S Sedan

Crown offers a purpose-built Interceptor auxiliary battery, that simplifies the electrical connection of all your police equipment while maximizing cargo space.

## Features:

- 1 Fully isolated from the OE battery powering the vehicle to prevent police equipment from running down the OE battery
- 2 Powers all police equipment connected to auxiliary battery
- 3 Simplifies trouble shooting issues between vehicle and equipment
- 4 Designed to maximize trunk and cargo area. Sedan option CKB400S includes trunk tray
- 5 Optional Crown Power Management System (CBIT) for Auxiliary Battery available
- 6 400CCA, 820 PCA absorbent glass mat battery
- 7 Must order Crown ship-thru code option 31C - D9G in the U.S. or 36K in Canada

Crown is one of North America's premier vehicle integrators. Our upfits are designed, engineered and built to meet a customer's specific requirements safely and reliably without voiding the vehicle's OE warranty.
